

President's Message

Dear Colleagues,

We wish you a healthy and happy New Year 2012 !

By gaining big momentum from all activities performed at the 1st AOCNS in Tsukuba last November, we are very happy to start the third term of AONSA Executive Committee for the next two years from Jan. 2012 through Dec. 2013.

Our airplane "AONSA" primarily piloted by the 1st President Mahn Wom Kim and his crew took off powerfully in the first term (Aug. 2008 – Dec. 2009) after accelerating on the runway. Then in the second term President John White and his crew have excellently navigated "AONSA" with its nose up towards a cruising altitude for international flight (Jan. 2010 – Dec. 2011). Now our term is for "AONSA" to reach a level flight at the higher altitude. The seat-belt sign has still not been off.

We wish to express our sincere thanks to the former two Presidents and their crew for their great effort to fly "AONSA" as high as the present level.

A full list of the new crew is shown in the "Organization" on this Web site updated today.

We look forward to your continued cooperation and effort to strengthen our "AONSA".

Best wishes,

Jan. 10, 2012

Yasuhiko Fujii

President of AONSA
